I am writing this letter for you to oppose NAB petition 04-160. XM Satellite radio is a subscription service that I pay for and feel it is not up to the National Association of Broadcasters to dictate what I am permitted to hear. This is just another area that the government is trying to limit what I do and I am getting tired of this.

I am a semi-truck driver and depend very much on knowing what I am coming upon in these major cities. If I use regular radio, I don't get the information prior to getting to the city and that information only comes to me IF I can find a radio station that gives this traffic and weather on a regular basis. With XM I get clear concise traffic based on highway numbers, not areas or road names.

Please oppose NAB petition 04-160!

Respectfully yours
